RADIO CONTACT WAS LOST AT 4 P.M. THURSDAY AS THE SR-71 PASSED WEST OF LAS VEGAS ON TEST MISSION. THE AIR FORCE SAID THE PLANE HAD ONLY ENOUGH FUEL REMAINING FOR ANOTHER HOUR OF FLIGHT. THE SR-71 DESIGNED FOR "WORLD-WIDE STRATEGIC RECONNAISSANCE" FLIES HIGHER THAN 15 MILES AT 2530 MILES PER HOUR OR CLOSE TO FOUR TIMES THE SPEED OF SOUND.

ITS ULTRA SENSITIVE, INFRA RED HEAT CAMERAS CAN PHOTOGRAPH 60,000 SQUARE MILES OF TERRAIN FOR EVERY HOUR THE PLANE IS ALOFT, ACCORDING TO STATISTICS RELEASED BY PRESIDENT JOHNSON IN 1964 WHEN HE ANNOUNCED DEVELOPMENT OF THE PLANE. PRODUCTION OF THE SR-71 SOON MADE THE FAMOUS U-2 OBSOLETE. LOCKHEED ALSO MANUFACTURED THE EARLIER SPY PLANE. ONLY A LIMITED NUMBER OF SR-71 HAVE BEEN PLACED IN OPERATION. ONE SQUADRON FLIES FROM BEALE AIR FORCE BASE NEAR MARYSVILLE IN NORTHERN CALIFORNIA. THE ONE SHIP BASED AT EDWARDS AFB WAS USED FOR FURTHER EXPERIMENTATION. THE SAME AIRPLANE LAST NOV 21 CAUSED EARTHE SHAKING SONIC BOOMS IN LAS VEGAS WHEN IT PASSED ON THE SAME TRACK FROM WHICH IT DISAPPEARED THURSDAY. AIR FORCE OFFICIALS AT EDWARDS HAD NO COMMENT ON THE SUPER SPY PLANE'S DISAPPEARANCE OTHER THAN THAT THE SEARCH WAS CONTINUALLY IN PROGRESS. ALTHOUGH THE SR-71 FLIES ON THE EDGE OF SPACE, AIR FORCE OFFICIALS SAID IT WAS "UNFEASIBLE" THAT THE CRAFT COULD ESCAPE THE PULL OF GRAVITY AND BE PLACED IN ORBIT AROUND THE EARTH. THEY SAID THE SEARCH WOULD CONTINUE UNTIL THE PLANE IS FOUND. EXACTLY ONE YEAR AGO, ANOTHER SR-71 FROM EDWARDS CRASHED ON A ROCKY PLATEAU NEAR ALBERT, N.M. ONE TEST PILOT WAS KILLED AND ANOTHER BAILED OUT SAFELY. UNQUOTE.
